(54) Title: STAND-ALONE MONITOR AS PHOTOGRAPH SLIDE SHOW PROJECTOR

(57) Abstract: A stand-alone monitor for viewing high-resolution digital images without the need of a PC including a means for transferring digital images directly to the stand-alone monitor; a means for displaying the digital images on a display screen of the stand-alone monitor; and a means for controlling the transfer and display of the digital images on the display screen. In one embodiment the images are received from a wireless image source, such as a digital camera. In another embodiment the images are read from an electronic storage media, such as smart media. The viewing of images on the monitor is controlled by a user, via a keypad or remote control, for instance. The keypad and reader/receiver may be integrated directly into the monitor or implemented as an interface within a separate enclosure.
